Dear Friend:

Almost exactly a year has passed since our reception last January which was attended by nearly 100 area and local leaders. This year has been filled with a tremendous amount of activity in the Teacher Center.

We are pleased to report that nearly 1000 of Newark's teachers have been involved in professional development through the Teacher Center. This includes teachers from both the public and non-public schools of our city.

Our graduate courses and workshops have been very well received. Curriculum development and in-school advisement have proceeded and our Resource Center has grown continually in size and use. We continue to publish our Newsletter and distribute it throughout the city.

We are proudest to report that the external review of our first year of operation has yielded some highly significant results concerning the effects the Center has been able to produce. Clearly, the Teacher Center is emerging as a focal point for educational excellence in Newark.

On January 8, we will be making these findings public for the first time. We hope you will join us to see how we have grown and to learn about the success of our work.

We look forward to seeing you then.

Yours very truly,

Ronna L. Waller
Project Coordinator
